

NOISEMAKER

Tools and Materials

Scissors

Cardboard

Markers

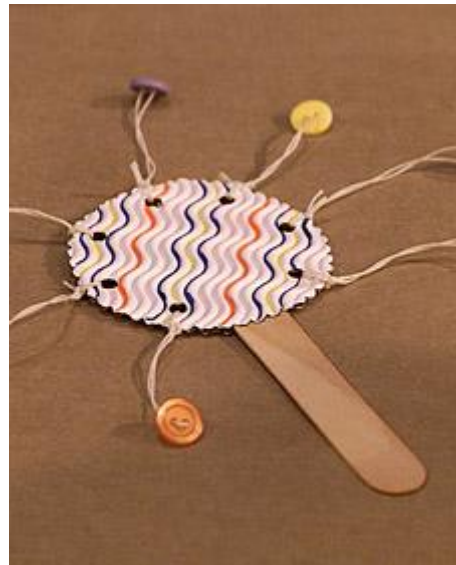

Craft glue,

Lolly stick

Hole punch

String

Beads or buttons

Making a Noisemaker How-To

1. Using scissors cut two identical circles from the cardboard.
2. Using markers, decorate one side of each circle.
3. Glue the two pieces together with craft glue, sandwiching the lolly stick in between the pieces for a handle.
4. Using a hole punch, make holes around the edge of the cardboard circle, about 1 inch apart. Thread 3- to 5-inch lengths of string with beads or buttons, and tie the free end to holes.
