

CRAFT OF THE MONTH

OCTOBER 2008

Marshmallow Ghosts

What you will need:

- Packet of marshmallows
- White chocolate
- Silver ball decorations or similar
- Writing icing
- Lollipop sticks

What you need to do:

Melt the white chocolate in a glass bowl in the microwave, or over a saucepan of simmering water. This takes a minute or two.

While you are waiting, start making your ghosts. Thread a couple of marshmallows onto a lollipop stick for each one.

Now dip the ghosts into the melted chocolate and swirl them around to cover the top of the ghosts' "heads".

Lay them on a plate and decorate using the silver balls and writing icing. Put your ghosts in the fridge for the chocolate to set.
