

TEENAGE PROVISION

LIFE SKILLS PROJECT

Thomley has recently received funding for the development of the Manor Hall (i.e. the house that you are using as a kitchen now!!). As part of this project, we plan to develop the kitchen area as a cooking and life skills area whereby young people learn how to cook, wash clothes, wash up etc.

What kind of life skills would you like your teenage child to develop whilst at Thomley? _____

We are seeking your advice in order to design the cooking and life skills area. Please give us your ideas in the section below.

	Would you like us to install the following items for development of like skills?	Which of the items below should be height adjustable?	What should we take in to consideration in design options for people with:			
			Sensory impairments	Physical impairments	Learning disabilities	Any other considerations?
Work tops	Yes/no	Yes/no				
Cupboards						
Drawers						
Sink						
Cooker						

Fridge/freezer						
Washing machine						
Dishwasher						
Adapted cooking utensils						
Cleaning materials & vacuum						
Chairs						
Tables						
Microwave						
Kettle						
Iron						
Other?
