

Thomley Activity Centre is looking into getting a Multi Use Games Area (MUGA) and wanted to know if this facility would be beneficial for your school and your P.E sessions? The MUGA will have football/netball/basketball/tennis markings for the relevant sport. The area will be fenced in and we will provide the coach for the sport that is provided that day. Sessions will run through the day and after school.

Would a MUGA be useful for your school to use for P.E and healthy schools programs?
